TO THE MEMBERS OF THE CLASS OF NINETY-SEVEN

I RESPECTFULLY submit the First Class Report, regretting the inevitable delay in its appearance. The work of preparing and compiling the first report has become, with the increase in members of the graduating classes, a task of many months for a man who gives his entire time to this single work. My time has never been free to devote exclusively to this duty, and I have been obliged to have some one assist me. A recent graduate did the greater portion of the work under my supervision, and I trust that the additional expense thus incurred may meet with your approval.

Regarding the subject matter, let me say a few words in explanation. The names of the men who entered with the class, but who completed their course in three years and took degrees at the end of that period, do not appear here, but will be found in the records of the Class of '96.

The statistics given in the following pages were compiled from the "Class Lives" filled out by the holders of degrees of A.B. and S.B. Three hundred and fifty-one out of a total of four hundred and twenty-four men sent in their "Lives."

Thanks are due to many members of the class and to friends outside for their assistance and courtesy—in particular to the Club Secretaries, the Team Captains, the officials in the College Office and in the University Library.

In conclusion, let me express my personal thanks to all those who have met the frequent appeals of the Secretary with promptness and consideration. It is obvious that without generous co-operation no adequate class records are possible. I urge upon all the necessity of ready response to the Secretary's future requests, to the end that our records may be complete and our class organization strengthened and preserved.

Yours very sincerely,

WILLIAM LLOYD GARRISON, JR.,

Secretary, Class of '97.
